My love affair with McNabb & Risley is going on almost 20 years! It's one of my favorite spots to shop and get creative inspiration. The attention to detail and originality in the room vignettes is amazing. Lots and lots of eye candy! My fantasy is to spend the night in the store, moving from room to room with a good book and glass of wine.

Terrific room I particularly like the mixing of patterns ... not too "matchy-matchy"
