FROM FAMILY FRIENDLY SPACES TO SPA-LIKE RETREATS TO SWANKY BUSINESS INTERIORS, AREA DESIGNERS SHOWCASE THEIR WORK

Designer: Kristen Schlicht, McNabb & Risley, Fine Furniture and Interior Design

Project: Family Great Room, Bayside

The inspiration for the color scheme came from the client's existing area rug, which featured warm reds, golden hues and rich espresso tones. The ikat print on the chairs unifies the space and adds pattern and interest. I repeated this print on the toss pillows and added a pop of turquoise for contrast. The sleek lines of the track arm leather sofas complement the Arts and Crafts influence of the architecture. The custom-designed overscale ottoman serves as a colorful cocktail table and as a place for the children to land on family movie night.
